MY TWO WEEKS IN REVIEW

Glory be to Jesus Christ!

Teen Camp was great. 14 participants and great adult staff. Blessed Emilian project is nearly finished. Fishing, camping and canoeing was great. I designed the camp to make me happy and it not only made me happy, but also made the campers, staff and parents happy too. I had meetings: Galilea Youth Prayer group, Catechist planning, Bishop Michael, Worobetz grant reporting, Sask Health Authority Training. Most of my office days included cleaning my office and doing emails and organizing. My truck window is fixed. I watched football, made apricot jam, cut grass, put up a mosquito/wasp tent on the back deck, etc. Finally our Montreal Ave house is for sale. This was a relaxing week.

In your service, Fr. Ivan

ОГЛЯД МОЇХ ДВОХ ТИЖНІВ

Слава Ісусу Христу!

Підлітковий табір був чудовим. 14 учасників і прекрасний дорослий персонал. Проєкт «Благословенний Еміліан» майже завершено. Риболовля, кемпінг та катання на каное були чудовими. Я спроектував табір так, щоб він робив мене щасливим, і це зробило щасливим не тільки мене, але й учасників табору, персонал та батьків. У мене були зустрічі: Молодіжна молитовна група «Галілея», планування катехизації, єпископ Михайло, звітування про грант «Воробець», навчання Управління охорони здоров'я Саскачевана. Більшість моїх робочих днів включали прибирання офісу, роботу з електронною поштою та організацію. Вікно моєї вантажівки полагоджене. Я дивився футбол, робив абрикосове варення, косив траву, встановив намет від комарів/ос на задній терасі та інше.

Нарешті наш будинок на Монреаль-авеню продається. Це був спокійний тиждень. До Ваших послуг, отець Іван

RECTORY AND CATHEDRAL OFFICE ROOF PROJECT

The rectory and cathedral office buildings consists of multiple roofs in order to cover a large footprint. The roof area that is directly above the west entrance to the cathedral office is much lower than the roofs to the north and south of the cathedral entrance roof. This lower roof area is subject to significant snow drift buildup which contributes to consequential damages to the building. This accumulation of snow above the lower roof area is subject to numerous cycles of freeze and thaw that creates ice dams at the lower west edge of the lower roof. This ice damming has progressively caused damage to the building cladding and perhaps even some amount of damage to parts of the underlying roof.

In an effort to reduce the extent of damage to the building over the lower roof area, workers are required following heavy snow falls to access this roof area and hand shovel the snow off of the roof. This is both dangerous and timely work.

Total estimated cost of the above remedial work, including all applicable taxes is \$21,600. Please consider providing a donation specific to the cost of the Rectory-Cathedral Office Roof Project. Project envelopes coming soon.
